

Valentine John Ogoshi

Software Engineer

SUMMARY

Creative, detail-oriented and dedicated professional with a deep interest in digital health and AI. Fast learner with proven record and ability to build successful web applications. Looking to bring my skills to an organization with support system to build and grow.

WORK EXPERIENCE

Software Engineer (remote)

May, 2022 – Present

- Collaborated with a team of developers to develop responsive web applications using best practices.
- Built semantically structured web applications
- Utilized Figma and procreate to design attractive and minimal user interfaces
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Nuella's Stitches (HTML, CSS, Bootstrap, jQuery) – sleek, user-friendly and responsive fashion designer portfolio web page advertising client's recent works and nice dress styles.

My Portfolio Website (HTML, CSS, jQuery) – fully responsive website giving awesome user experiences while getting to know me and the recent works I have worked on.

Other Projects:

On-demand background color changer for YouTube streamer, BMI calculator, quiz app, Rock-paper-scissors guessing game, solved over 20 codewars problems from 8kyu to 6kyu and many more.

Student Intern | Epidemiology Laboratory, Jos

August 2019 – January, 2022.

- Effectively used several laboratory equipment to ensure quick and efficient laboratory test
- Confidentially documented and handled all patients' test records.

Class Teacher at St Aloysius Nursery School | Doma

September, 2014 – May, 2016.

- Created and lead interactive and practical class lessons through the implementation of various technological educational resources
- Collaborated with colleagues to create and revise lessons to accommodate pupils' needs.

VOLUNTEERING

The North (Tech Community) | Nigeria

October, 2022 – Present

Role: Community Moderator
